NM: Not meaningful

- (1) Net gain on disposal of property, plant and equipment and intangible asset in FY2017 was attributed mainly to the Group's Diesel Engines Unit ("Yuchai"). The gain from the disposal of intangible asset was related to a sale of engineering design services for a heavy-duty engine platform for a joint venture. This was partially offset by loss on disposal of property, plant and equipment by the Group's Consumer Products Unit ("Xinfei").

Net loss on disposal of property, plant and equipment in FY2016 was attributed mainly to Yuchai and Xinfei. This was partially offset by gain on disposal of property, plant and equipment by the Group's Building Materials Unit ("BMU").

- (2) Impairment losses in FY2017 were mainly related to impairment of property, plant and equipment in Xinfei and Yuchai and intangible assets in Yuchai. It also included impairment relating to Xinfei's restructuring exercise.

Impairment losses in FY2016 were mainly related to impairment of intangible assets in Xinfei and the Group's Air-conditioning Systems Unit ("Airwell") and plant and equipment in Airwell.

- (3) Net impairment losses for trade and other receivables in FY2017 were attributed mainly to Xinfei and partially offset by write-back of provision for Yuchai. It also included impairment relating to Xinfei's restructuring exercise.

Net impairment losses for trade and other receivables for FY2016 were attributed mainly to Yuchai and Airwell.

- (4) Net allowances for inventories obsolescence in both FY2017 and FY2016 were attributed mainly to Xinfei's provision for stock obsolescence and partially offset by reversal of allowance for inventories obsolescence by Yuchai. In FY2017, it also included impairment relating to Xinfei's restructuring exercise.

- (5) Depreciation and amortisation recorded in 2017 were comparable to 2016.

- (6) The net foreign exchange gain of \$4.1 million in FY2017 was mainly due to foreign exchange gain on revaluation of Singapore dollar ("SGD") assets in China Yuchai International Limited ("CYI") (with functional currency in United States dollar ("USD")).

Net foreign exchange loss in FY2016 was mainly due to revaluation of SGD denominated liabilities in Xinfei. This was partially offset by reclassification of revaluation losses (relating to inter-company loans re-designated as quasi-equity loans) to equity.

- (7) Net fair value loss on derivatives in 2016 (for hedging against foreign currency risk) mainly arose from forward foreign exchange contracts.
- (8) The increase in interest expense in FY2017 was mainly due to higher borrowings and bills discounting in Yuchai and the Company.
- (9) The increase in interest income in FY2017 was mainly due to higher interest income from bank deposits in Yuchai.
- (10) Gain on disposal of subsidiary arose from the disposal of investment in LKN Investment International Pte. Ltd. in November 2017, which owns and operates a service apartment hotel in Shanghai.
- (11) Gain on disposal of joint venture arose from the disposal of interest in Copthorne Hotel Qingdao Co., Ltd., completed in October 2017, which owns and operates a hotel in Qingdao. The investment was classified as assets of disposal group held for sale as at 31 December 2016.
- (12) The write-off of property, plant and equipment in FY2017 was mainly recorded by Yuchai.

1(a)(iii) Amount of any adjustment for under or overprovision of tax in respect of prior years

In FY2017, the Group's tax charge included a provision of \$2,479,000 for prior years (FY2016: write-back of over provision of \$478,000 for prior years), of which a provision of \$1,522,000 was made in the first quarter ("1Q") of 2017 by a Malaysian subsidiary (the "Subsidiary") as explained in the Group's 1Q 2017 results announcement dated 12 May 2017. On 25 May 2017, the Kuala Lumpur High Court granted an interim stay of proceedings (the "Interim Stay") which includes the deferment of payment of the disputed taxes until the disposal of the court hearing. The High Court has set the next court hearing date to be on 1 March 2018. The Subsidiary's solicitors have advised that the Interim Stay remains valid until the disposal of the court hearing.

Explanatory Notes to Statement of Financial Position

Group

- Non-current assets: The decrease in non-current assets was mainly due to lower property, plant and equipment arising from impairment of certain plant and equipment and translation of these assets as RMB weakened against the SGD at 31 December 2017. The functional currency for Yuchai's main operating unit in China and Xinfei is RMB whilst the Group reports in SGD. In addition, it was due to impairment of certain intangible assets in Yuchai.
- Current assets: The increase in current assets was mainly due to higher cash and short-term deposits and inventories holding at 31 December 2017. This was partially offset by lower trade and other receivables at 31 December 2017 and the disposal of interest in Copthorne Hotel Qingdao Co., Ltd (previously classified as assets held for sale) during 2017.
- Current liabilities: The increase in current liabilities was mainly due to increase in short-term loans and borrowings of the Company and Yuchai arising from higher working capital requirement and higher payables at 31 December 2017.
- Non-current liabilities: The increase in non-current liabilities was mainly due to higher long-term loans and borrowings by the Company at 31 December 2017.

Company

- Non-current liabilities: The increase in non-current liabilities was mainly due to higher long-term loans and borrowings by the Company at 31 December 2017.

Comparatives

Note: Reclassification to comparatives, namely: (a) Grant received from government had been reclassified from cash flows from financing activities to cash flows from operations; and (b) Acquisition of non-controlling interests had been reclassified from cash flows used in investing activities to cash flows used in financing activities.

The above reclassification did not have any impact on the Statement of Financial Position of the Group as at 31 December 2016, the Income Statement or the net change in cash and cash equivalents for the year then ended.

1(d)(ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

1(d)(ii)(A) Movements in issued and paid-up capital

The Company did not hold any treasury shares as at 31 December 2017 and 31 December 2016.

There was no change in the Company's issued share capital during the year ended 31 December 2017.

1(d)(ii)(B) Share Options

There was no option exercised pursuant to the terms of the Hong Leong Asia Share Option Scheme 2000 (the "**Scheme**") during the year ended 31 December 2017.

As at 31 December 2017, there were a total of 1,290,000 (31 December 2016: 1,340,000) unissued shares under option granted pursuant to the Scheme. Details are as follows:

Year of Grant	Exercise Price	Number of Outstanding Options
2008	\$2.36	470,000
2011	\$3.17	380,000
2014	\$1.31	440,000
Total		1,290,000

1(d)(iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.

The total number of issued ordinary shares as at 31 December 2017 and 31 December 2016 was 373,908,559.

1(d)(iv) A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on.

There was no sale, transfer, disposal, cancellation and/or use of treasury shares during the year ended 31 December 2017.

2. Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.

The figures have not been audited or reviewed.

3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).

Not applicable.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

The Group has applied the same accounting policies and methods of computation as in the Group's audited financial statements for the year ended 31 December 2016.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group has adopted all accounting standards that are effective from 1 January 2017 but the adopted changes have no material effect.

6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-
 (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
 (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

The main business units of the Group are the Diesel Engines Unit ("Yuchai"), the Building Materials Unit ("BMU") and the Consumer Products Unit ("Xinfei"). The other business units in the Group are the Industrial Packaging Unit ("Rex") and the Air-conditioning Systems Unit ("Airwell").

In FY2017, the operating environment remained challenging for the Group. China's economy grew faster than expected in the fourth quarter of 2017 at 6.8%. China recorded a full year GDP growth of 6.9% as compared to a growth of 6.7% in FY2016. This was the first annual acceleration for the Chinese economy since 2010. However, based on the FY2017 statistics published by China Market Monitor, the unit sales for fridge and freezer continued to decline. Xinfei's performance also suffered from the adverse impact of the overall excess capacity in China. The Singapore economy grew by 3.6% in FY2017 as compared to a growth of 2.4% in FY2016. However, the local construction industry declined by 8.4% in FY2017 against a growth of 1.9% in FY2016. The construction industry had been on a declining trend since the third quarter ("3Q") of 2016. This slow growth had an adverse impact on the operating performance of BMU. In Malaysia, the Group's subsidiary, Tasek Corporation Berhad faced intense price competition due to excess cement capacity and lesser private property projects.

On 30 October 2017, the Company announced that following a strategic review of its Consumer Products Unit, the Board had approved Xinfai undertaking a restructuring exercise (“**Restructuring Exercise**”) involving the cessation of Xinfai’s manufacturing and production activities, and the exploration of strategic participation with potential partners. Xinfai ceased manufacturing and production activities in early November 2017. Whilst the Restructuring Exercise is a good strategic exercise for the Group, certain impairments would have to be made.

In FY2017, the loss attributable to the owners of the Company (“**PATMI**”) decreased by \$4.7 million or 6.7% to \$66.5 million, as compared to a loss of \$71.2 million in FY2016. The loss for FY2017 included certain non-cash items relating to the Restructuring Exercise, such as impairments for plant and equipment and intangible assets, and provisions for receivables, inventories amounting to \$24.9 million at PATMI level. In FY2017, the Group incurred PATMI loss as the profits from Yuchai were not sufficient to offset the loss incurred by Xinfai and the Restructuring Exercise impairments.

2017 versus 2016

Revenue for the Group was \$4.027 billion in FY2017, an increase of \$301.9 million or 8.1%, from \$3.725 billion in FY2016. The increase in revenue was mainly due to revenue growth recorded by Yuchai which was partially offset by the revenue decline of BMU and Xinfai.

- Yuchai’s revenue increased by \$479.6 million or 17.0% as compared to FY2016. Yuchai sold 367,097 engines in FY2017, an increase of 14.6% or 46,673 units as compared to 320,424 units sold in FY2016. The increase in engine sales was mainly due to the rebound in the sales of truck and off-road engines, while bus engines sales softened. The statistics from China Association of Automotive Manufacturers reported a growth of commercial vehicles (excluding gasoline-powered and electric-powered vehicles) by 16.9% for 2017 as compared to 2016.
- BMU’s revenue decreased by \$83.9 million or 18.1% as compared to FY2016. In Singapore, the decrease was due to lower sales from the precast division and price competition. The construction industry in Singapore started declining since the third quarter (“**3Q**”) of 2016 and continued through 2017. In Malaysia, the decrease in revenue was mainly due to lower demand for cement in the domestic market and price competition.
- Xinfai’s revenue decreased by \$94.1 million or 25.4% as compared to FY2016. Total unit sales were 1.20 million units for FY2017, a decrease of 20.0% as compared to 1.50 million units for FY2016. This was mainly due to cessation of production activities under the Restructuring Exercise. In addition, the fridge and freezer market in China remained to be highly competitive and affected by excess capacity. China Market Monitor reported that the fridge and freezers unit sales declined by 11.4% and 13.6%, respectively for FY2017 as compared to FY2016.

The Group’s gross profit was \$817.4 million in FY2017, an increase of \$52.5 million or 6.9%, from \$764.9 million in FY2016. The gross profit margin was 20.3% as compared to 20.5% in FY2016, a slight decrease of 0.2%.

Other income was \$133.4 million in FY2017, an increase of \$100.4 million from \$33.0 million in FY2016. The increase was mainly due to asset disposal gains from HL Global Enterprises Limited (“**HLGE**”) of \$66.3 million, gain on disposal of intangible asset of \$23.5 million and higher interest income in FY2017. HLGE is a subsidiary of China Yuchai International Limited. The asset disposal gains comprised a gain of \$44.1 million from the disposal of a HLGE’s subsidiary which owns and operates a service apartment hotel in Shanghai, and a gain of \$22.2 million from the disposal of a joint venture which owns and operates a hotel in Qingdao. The gain on disposal of intangible asset was related to a sale of engineering design services for a heavy-duty engine platform for a joint venture by Yuchai.

Selling and distribution (“**S&D**”) expenses were \$356.3 million in FY2017, a decrease of \$3.9 million or 1.1% as compared to \$360.2 million in FY2016. As a percentage of sales, S&D expenses were 8.8% for FY2017 as compared to 9.7% in FY2016, a reduction of 0.9%.

Research and development (“**R&D**”) expenses were \$135.2 million in FY2017, an increase of \$2.3 million or 1.7% as compared to \$132.9 million in FY2016. The increase was mainly due to higher R&D spending by Yuchai. As a percentage of sales, R&D expenses were 3.4% in FY2017 as compared to 3.6% in FY2016, a reduction of 0.2%.

General and administrative (“**G&A**”) expenses were \$216.3 million in FY2017, an increase of \$23.0 million or 11.9% as compared to \$193.3 million in FY2016. The increase was mainly due to higher staff costs in Yuchai arising from retrenchment exercise and impairment of an intangible asset in Yuchai. As a percentage of sales, G&A expenses were 5.4% in FY2017 as compared to 5.2% in FY2016, an increase of 0.2%.

Finance costs were \$41.6 million in FY2017, an increase of \$6.9 million or 19.6% as compared to \$34.7 million in FY2016. This was due mainly to higher finance costs for borrowings and bills discounting incurred by Yuchai and higher bank interest expenses incurred by the Company due to increased bank borrowings arising from higher working capital requirement.

Other expenses were \$30.9 million in FY2017, an increase of \$13.5 million from \$17.4 million in FY2016. In FY2017, other expenses were mainly due to impairment for plant and equipment and intangible assets, and provisions for receivables and inventories related to Xinfei’s Restructuring Exercise which amounted to \$27.6 million. In FY2016, other expenses were mainly due to a plant shut-down by Xinfei.

As a result, profit after tax was \$126.1 million in FY2017 as compared to \$22.8 million in FY2016. The Group recorded a loss attributable to the owners of the Company of \$66.5 million in FY2017, as compared to loss of \$71.2 million in FY2016. The loss for FY2017 included impairments relating to the Xinfei’s Restructuring Exercise which amounted to \$24.9 million.

Working Capital and Cash Flow

The Group had cash and short-term deposits of \$1.364 billion as at 31 December 2017 compared with \$1.034 billion as at 31 December 2016.

During the year under review, the Group generated cash from operating activities of \$203.9 million. The cash generated was derived from operating profit. It was used partially to finance the increase in inventories holding, which was offset by higher trade and other payables at year-end.

The Group had net cash inflow from investing activities of \$29.8 million. It was mainly due to proceeds from disposal of assets of \$123.9 million, partially offset by the purchase of property, plant and equipment of \$77.3 million.

The Group had net cash inflow from financing activities of \$92.0 million. It was mainly due to net borrowings of \$194.5 million, partially offset by dividend payment of \$60.5 million and interest payment of \$43.1 million.

9. Where a forecast, or prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

None.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group expects Yuchai's performance to remain positive. However, there are signs that the growth in truck market is slowing down and the bus market continues to be weak. Yuchai operates in a competitive engines market in China.

The Group expects BMU to operate in difficult and challenging market conditions. In Singapore, the decline in construction sector started in 3Q 2016 and it is expected to persist in the near future. Although there are signs of recovery, it will take some time before a full recovery. In Malaysia, the outlook for the construction sector is expected to be weak especially in the private sector, although compensated by public sector projects. However, price competition has intensified with excess capacity in the cement industry. The Group believes that the cement price competition will persist into 2018. Hence, the challenges facing BMU will continue to affect the Group's performance.

Xinfei has begun the Restructuring Exercise as announced on 30 October 2017. In FY2017, the Company had made significant impairments and provisions. As Xinfei had contributed negatively to the Group's performance in the past years, the Group expects that the Restructuring Exercise would be a positive strategic development, as it would reduce the Group's exposure to the challenging consumer goods market in China. Further to our announcement on 22 January 2018, the Company has submitted a restructuring plan, which has been selected as the leading plan based on the recommendation of the Restructuring Investor Evaluation Committee chaired by the Xinxiang Intermediate Court. However, any restructuring plan is subject to the approval by the creditors of Xinfei in the coming creditors' meeting. The Company will continue to work out the restructuring plan with potential partners.

The Group expects 2018 to be challenging. The Group will monitor the market environment closely and endeavor to mitigate adverse effects accordingly. The Group will continue to explore other strategic options and potential alliance opportunities, whilst maintaining its cost control discipline and continuing its organizational restructuring initiatives.
